

TAROS Series Tenkey Button Access Control System TAROS TK

The TAROS TK is easy to program, easy to use and simple to operate. It allows up to 100 individual user PINs from 4 to 10 digit codes and has a non-volatile EEPROM memory.

Each user on the system is assigned two different codes / numbers. The first code is the user number. This number, from 00 to 99, is used to keep track of who is assigned to the system. The second code is the PIN code (Personal Identification Number). This is a 4 to 10 digit programmable code that the user will enter into the keypad to activate certain functions.

Specifications

Input Voltage	DC12V
Current Draw	DC12V@150mA±10%
Dimension	151mm(L)x45mm(W)x18.5mm(H)
Net Weight	85g
Case Material	ABS

Features

- Low cost, Easy to use.
- Code Length : Allows up to 100 PIN codes (4 to 10 digit codes).
- LED display with audible indication.
- Non-Volatile EEPROM memory.
(All programming is maintained during a power outage)
- Fully Programmable via keypad and master code.
- Invalid PIN Lock-out.
- Logical memory to prevent duplication.
- Door Open Time : The door unlock time is programmable from 1 to 99 seconds.
