DOOR LOOP**

PT - R01 (Concealed type door loop)

“TAROS” Door Loops – power transfer

PT - R01 is a concealed door loop, which links the cable from the door frame to the door leaf from the hinge side. It is flush with the frame with the flexible loop being attached to the door leaf. This unit offers a high level of security for the cable, and is hidden from view making it aesthetically pleasing.

PT - R01

Material : Stainless Steel

Dimensions

If the center doesn't match between the door and door frame, it may result in damage of the spring so the door can not be closed.
